

Dear Mr. Joshi,

Greetings to you from Multihexa College!

We are very pleased to be working with you, **SIA Immigration Solution INC.** as authorized agent helping us to promote and recruit students for the college. We are very excited to be working to bring international students here to the college and the region.

This letter will outline the different commission rates that your agents will be entitled to, based on the different pricing structures currently used by the college.

For the standard international student pricing structure, as a partner of Multihexa College, you will be entitled to commission based on the registered students' tuition fees, from the first student onward, only for the first two semesters (10 courses) of the student's study, at a flat rate, paid in Canadian dollars, as follows:

- a. For the first 5 enrolled students in any Recruitment Year (January 1-Dec 31), 25% of the tuition fees paid to Multihexa, one half (12.5%) to be owing 31 days after commencement of the student's program and one half (12.5%) will be owing as of the 150th day after commencement of the student's program.
- b. For enrolled students number 6 through 9 in any Recruitment Year, the commission will be 28% of the tuition fees paid to Multihexa, one half (14%) to be owing 31 days after commencement of the student's program and one half (14%) will be owing as of the 150th day after commencement of the student's program.
- c. For the 10th enrolled student and each enrolled student thereafter in any Recruitment Year 30% of the tuition fees paid to Multihexa, one half (15%) to be owing 31 days after commencement of the student's program and one half (15%) will be owing as of the 150th day after commencement of the student's program.

For the temporary promotion for international students **already in Canada with study visa**, as a partner of Multihexa College, you will be entitled to a commission of \$2,000 (this will be paid in two parts \$1,000 + \$1,000 as students pay their fee for the half-year + half year) for the first year only.

For the temporary promotion for international students **applying from abroad**, the agents will be paid at a varying rate of 15% to 20% of the registered student's tuition fees, only for the first two semesters (10 courses) of the student's study

Commissions are paid upon invoice from the agent after each semester add/drop date and after all outstanding student balances have been paid.

Kindly save this communication.

We look forward for a long and fruitful business relation and wish you and your team all the very best.

Happy Recruiting!

If you have any question, please feel free to let us know.

Regards,
